

Organizational Sustainability: 2016 Key Performance Indicators

www.austintexas.gov/sustainability

As a best-managed city, Austin is committed to integrating sustainability into our day-to-day operations. This report card tracks 10 focused indicators of the City of Austin's sustainability performance, including impacts related to our employees, facilities, fleet, and purchases. The measures reflect sustainability as a balance among prosperity and jobs; conservation and the environment; and health, equity, and cultural vitality.

Measuring and sharing information about our performance as an organization helps us showcase our achievements and challenges so we can track progress and manage change.
