Watershed Protection Development Review

Watershed Protection & Development Review Department, The City of Austin produced this map for the sole purpose of use as a work resource and as an estimated boundary of landfills in & around Austin. The City of Austin does not warrant the map &/or information regarding its accuracy or completeness. Reproduction is not permitted without permission from the City of Austin-Watershed Protection & Development Review Department.

Date: 09.20.2006

3.10 #10, HOG HILL/HANDY'S

Location: The Hog Hill landfill is owned by a private entity, and is located in east Austin, at 6410 Harold Court, just west of Hwy 183.

Extent: Hog Hill/Handy's appears today essentially as described in the 1984 URM report, however, significant amounts of on-going illegal dumping is apparent. The landfill is located on one or both of two adjacent private land tracts.

Prior Use: Recent trash and debris (generally inert) have been dumped in significant quantities down a slope on the west side of the two properties. This slope leads to an unnamed tributary to Fort Branch Creek. Evidence of the recent nature of the dumping include tree limbs and brush freshly broken or pushed over by debris with leaves still green. The East MLK Neighborhood Plan lists conditions at this landfill as a limiting constraint to development in the area. The plan proposes to allow mixed use development in the vicinity of the site, and mixed residential to the west and commercial use to the south and east.

Groundwater: No information available.

Remediation: None

Current Conditions: Current conditions associated with this site may pose a current or future material concern to human health or the environment, based on the following factors:

- proximity of structures adjacent to and possibly over the landfill,
- significant amounts of illegal dumping,
- proximity of drainage way to on-going illegal dumping.
